

# How has this call helped you managing COVID19 in the WMM?

# What format would you like future zooms to take?

# If you have any other ideas for future calls - how it can be improved or different content - pls share them here

short general discussion then go into rooms

Standardised documentation

Input Or representation from physiofirst for private practitioners

agree with short general discussion and then more specific rooms

A presentation then discussion pick a popular topic

Maybe separate zoom for private practitioners and nhs - we have some shared issues but also different challenges

Physiotherapy for breathing pattern disorders working on on-line assessment-would be happy to present here if requested

Good to be updated with how things are progressing across the region so do like the general zoom format

Sorry - I got this link through private practise matters so thought it would have that slant. Obviously I got a bit mixed up!
